### Professional Summary

Experienced Full Stack Developer with 2.9+ years of experience in PHP, Python, Django, and full-stack web development. Skilled in designing scalable, secure web applications with real-time features, API integration, and database optimization. Known for writing clean, maintainable code and delivering feature-rich systems with a user-friendly interface.

### Technical Skills

- Programming: PHP, Python, Java, JavaScript, C/C++
- Web Development: Django, Flask, HTML5, CSS3, Bootstrap, React.js, jQuery, AJAX
- Databases: MySQL, SQLite, PostgreSQL, SQL Server, MongoDB
- Frameworks/Tools: CodeIgniter, Entity Framework, Git, Visual Studio, RESTful APIs, MVC, Microservices
- Others: Face Recognition, Geo-location API integration, Authentication, Performance Optimization

### Professional Experience

#### PHP Developer | OnDirect, Pune | March 2023 – Present

- Refactored existing codebase to enhance reliability, scalability, and maintainability.
- Developed secure authentication system adhering to industry standards for data protection and privacy.
- Built RESTful APIs as backend for web applications, improving scalability and reducing latency.
- Implemented real-time notification system keeping users informed of latest updates and events.
- Optimized application performance through caching and memory-efficient data structures.
- Developed system to monitor application performance and alert stakeholders of potential issues.

#### Full Stack Developer | LiftUp Tech, Pune | April 2022 – January 2023

- Created RESTful APIs for seamless integration with other applications.
- Implemented responsive design ensuring consistent user experience across devices.
- Utilized microservices architecture to improve modularity and reduce dependencies.
- Leveraged serverless architecture and NoSQL database to reduce costs and handle large datasets efficiently.
- Developed secure authentication system ensuring user privacy and data security.
- Refactored legacy code to enhance reliability, scalability, and maintainability.

- Built system to monitor application performance and alert stakeholders of potential issues.

#### **PHP Developer | TVD Software, Ahmednagar | January 2018 – September 2019**

- Developed custom CMS platforms using CodeIgniter.
- Integrated third-party APIs and optimized backend processes.

#### **Projects**

##### **Employee Attendance & Activity Tracking System**

Technologies: Python, Django, HTML, CSS, JavaScript, SQLite/PostgreSQL, Geo-location APIs

- Developed a web-based system for real-time employee attendance and activity tracking.
- Implemented offline data capture with auto-sync and location-based logging.
- Admin panel to manage employees, generate reports, and auto-set passwords.
- Live Demo: <https://django-attendance-yvf3.onrender.com/>

##### **Advanced Employee Attendance & Company Portal**

Technologies: PHP, MySQL, HTML, CSS, JavaScript, AJAX, Bootstrap, Geo-location API, Face Recognition

- Built a feature-rich company portal with face recognition login, real-time location tracking, and offline support.
- Admin dashboard for managing employee accounts, posts, announcements, and detailed reporting.
- Two-way authentication for secure attendance logging and verification
- Live Demo : <https://attendance-project.infinityfreeapp.com/>

#### **Education**

- Master of Computer Application (MCA) – IMSCDR College, Ahmednagar | 2016 – 2019
- Bachelor of Computer Application (BCA) – K.J.S. College, Kopargaon | 2013 – 2016

#### **Certifications**

- Python/Django – Cyber Success, Pune
- React – Online
- Web Scraping – Online

#### **Soft Skills**

Teamwork, Communication, Time Management, Problem Solving, Leadership, Critical Thinking

#### **Languages**

English, Hindi, Marathi
